Feng Shui - The perfect balance of healthy eating and sensational taste.

Over 4000 years old, Feng Shui is the ancient Chinese art of promoting health, wealth and happiness, it is a science of harnessing positive energy.

In modern times much of what we can learn emerges from finding new ways of understanding our own health.

For this, our specially prepared food has a lot to offer:

Following the Theory of Feng Shui, from choosing the natural ingredients to putting extra effort into cooking, they build up a whole picture of how it responds to internal and external changes and how mind and spirit feed back into the physical health of the body.

Welcome to Swindon Rendezvous with our new menu.

The success of these oriental dishes comes from adhering to culinary logic. By modernising the execution and sometimes introducing some unexpected but carefully considered exciting flavour combinations, these dishes are designed to thrill your taste buds.

We go to great lengths to select the very best ingredients and wherever possible, healthy and organic produce which all form the foundation of my food.

My defiant passion for food harmonises the synergy between foods and marriage of flavours, which has allowed me to create something quite unique

I hope you agree

Alan Mok

Prepared fresh using the very best of ingredients!
